Please find below and/or attached an Office communication concerning this application or proceeding.

### **Notice of Incomplete Reply**

An incoming specification was received on 7/23/01. The specification was not in English. Accordingly, a notice was sent by OIPE on 9/13/01 which required applicant provide an English translation of the specification and a statement that the translation is accurate in accordance with 37 CFR 1.52(d).

Applicant provided a response to the requirement that was received by the Patent Office on 2/11/02. This response included a "Copy of English translation of Chinese application No. 001044958," and a certification of the translation. However, this translation does not appear to be fully compliant with the requirement because it appears to be a translation of only a portion of the specification filed in this application on 7/23/01. The application filed on 7/23/01 contains pages that are stamped with each of the following:

Chinese Application No. 001198777

Chinese Application No. 001044958

Chinese Application No. 001221612

Chinese Application No. 001221604

Chinese Application No. 001221620.

The translation filed 2/11/02 indicates that only a translation of one of these was filed.

In addition, the a review of the specification makes it clear that there are a number of nucleotide sequences (and discussion of those sequences) that were filed in the originally filed specification that are not present in the translation provided 7/23/01. Prior to examination of this application, a complete translation of the application as filed in Chinese must be provided in accordance with 37 CFR 1.52(d), along with the proper certification.

Art Unit: 1634

Thus, the reply filed on 7/23/01 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): a complete translation of the specification as filed in Chinese was not provided. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
